Mr. D.L. Foate,
Orderville, Utah

RE : LONG VALLEY DIST.

Dear Sir:

I am in receipt of your letter of May 3 in which you refer me to the Session Laws of 1919 to 1925 relating the water rights etc. Under the Session Laws of 1919, Sec. 62, Chap. 67 it states that "whenever in the judgement of the State Engineer it is necessary to appoint a Water Commissioner for the distribution of water for any river system or water source, he shall be appointed annually etc." In my judgement, therefore, it is not necessary to appoint a Water Commissioner for Long Valley, up until this time at any rate for the reason that out of 30 water users in that valley you are the only one to make such a request.

Referring further to your letter in the last paragraph of which you state that you wrote this office on April 19. In this you are in error. Your letter was written on the 19, received on the 21 and replied to on the 24.

Yours very truly,

T.H. Humpherys,
STATE ENGINEER
